NRMA Car Loan

This Determination describes the types of customers that the Secured Personal Loan was designed for and the conditions that apply to the distribution of the Secured Personal Loan by RACV Finance and its distributors.

This Determination is effective on and from 14 October 2022 (Effective Date).

Target Market

The Secured Personal Loan is designed to provide timely medium-term financial assistance to retail customers residing in Australia seeking to purchase personal property and/or services for household, domestic or personal use.

The Secured Personal Loan's target market is defined in this section, outlining the class of retail customer through detailing product design factors such as key product attributes and eligibility criteria. These take into consideration the likely needs, objectives, and financial situation of the intended target market for which the product has been designed.

Table A provides a summary of key product attributes and highlights purposes for which the loan is suitable and not suitable.

Table B provides a summary of the eligibility criteria for the class of retail customer for who the product is suitable and not suitable.

The Secured Personal Loan, including its key attributes, is likely to be consistent with the financial situation, needs and objectives of the class of retail customers in the target market because money made available to customers under a loan may be used to fund the loan purpose.

The loan amount range, loan term and relative simplicity of the product is suited to the acquisition of personal property and services for personal, household, and domestic use.

Customers who can meet the financial requirements and are assessed as meeting RACV Finance's credit eligibility criteria should be able to meet their financial obligations under the credit contract, assuming no material change to their financial situation.

Interest Rate	Fixed annual percentage rate that applies for the term of the loan. RACV Finance uses risk-based pricing to determine the annual percentage rate (APR).

The Secured Personal Loan is promoted by RACV Finance predominantly as a personal loan or as a car loan. Decisions about the content and placement of advertisements are made by RACV Finance having regard to whether it is more likely that the customers who acquire the product are in the target market, taking in account in particular loan purpose. Distributors are not permitted to place advertisements without the prior written approval of RACV Finance.

RACV Finance staff and Authorised Brokers who distribute the Secured Personal Loan must first be accredited by RACV Finance by satisfying RACV Finance's onboarding and training requirements. This includes providing training to distributors on the target market, including RACV Finance eligibility criteria and product features and suitability. Authorised Brokers are selected based on detailed assessments and due diligence checks including verification of credit licence, registration with required regulatory bodies and, absence from banned/disqualified registers.

All loan applications must be submitted for assessment to RACV Finance through a lending portal made available to all distributors. All loan applications are assessed for suitability by RACV Finance having regard to customer financial requirements and loan objectives in accordance with relevant credit and responsible lending policies and applicable law. A customer will not be offered a loan unless the application has been approved by RACV Finance.

RACV Finance considers that these distribution conditions make it more likely that customers who acquire a Secured Personal Loan will be in the target market.
